

RICOH Smart Locker Solutions 6100 Series

Shallow-depth lockers

The smart way to control your devices and save costs Device Management or Shallow-depth lockers

24/7 management of high-value IT assets.

Typical use cases include:

- Warehouse / DC / Transport Logistics – Management of HHT's, Mobile Printers, Smart Devices.

In-Locker USB charging available (optional) for use-cases where assets require continuous charging.

Cloud-based platform provides real-time visibility, tracking, insights and reporting.

API's available to support integration into 3rd party systems e.g. Ecommerce, Order Mgmt. Systems.

Includes integrated peripherals:

- RF Reader Used to authenticate users via ID Badge
- Barcode Scanner Used to check assets in/out

Custom branded Optional Front and Side Skirts provide a more streamlined appearance.

Shallow-depth lockers ideal for managing hand-held scanners, radios, tools, etc.

- Fast and easy access & return of devices
- No need for a cage hand to distribute devices
- Real time reporting for audits and alerts
- Full accountability and traceability of devices

Trajectory Cloud™ Real-Time Control, Tracking and Insights

Our Trajectory Cloud™ platform makes these smart devices absolutely brilliant. You'll know who used what, when and where, 24/7. And you can set up automated alerts and notifications to reinforce established processes and monitor activity patterns. Plus, the electronic audit trail provides detailed documentation for automated compliance management.
